# A Blast to the Past

A Time-Series Population  
Analysis of American  
Metropolitan Areas.

# Our Problem

The United States is large, has a lot of people, and countless groups of people who require different needs, and We have an immense amount of data giving us insights into the demographics of countless US cities.

“How do we decide where to allocate federal funds and invest in certain services or infrastructure?”

## Why does our problem matter?

- With our analysis, we can figure out solutions to meeting the needs of different people in different areas.

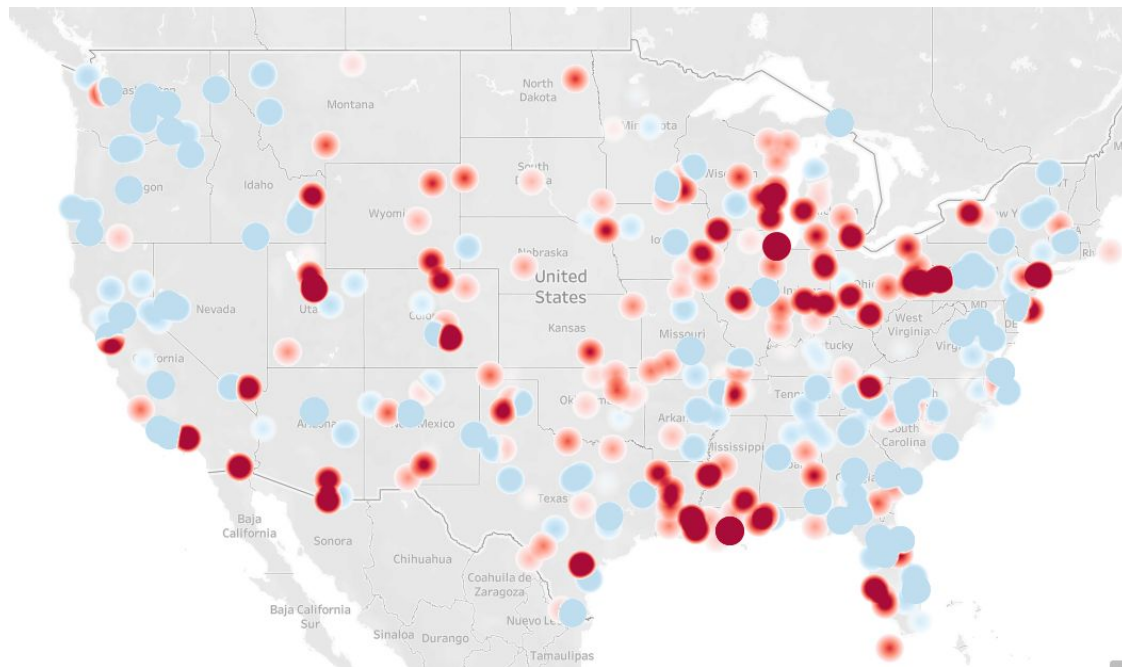

# Questions and Analysis

# Where should we plan for infrastructure?

Where are people moving to? Where do we need to increase development? and what facilities do these areas lack?

# Density Map

% Density increases

% Density decreases

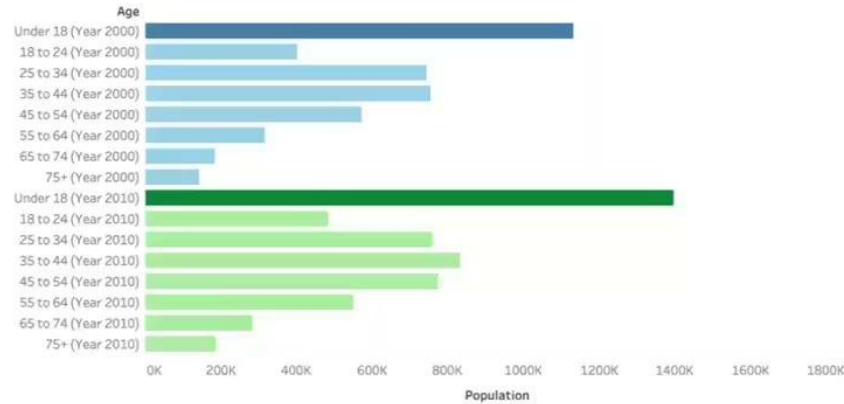

# Where should we plan for educational development?

- In what regions are populations getting younger?
- How can we identify where young people and families will go?

## Age Distribution for Metropolitan Area in 2000 and 2010

Atlanta-Sandy Springs-Marietta, GA

# Conclusions

## Highly Dense Cities

Cities getting denser:

Trenton  
San Francisco  
Milwaukee

## Youth

Cities getting younger:

Charlotte  
Raleigh  
Austin

## Elderly

Cities getting older:

Los Angeles  
New York  
Miami

# Let's Take a Trip Back to 2010

# Lawmaker Actions in 2010

## Where did the US invest in infrastructure?

Trenton, NJ  
Route 18 \$200 Million  
Restoration Project

San Francisco, CA  
\$102 Billion spent

Milwaukee, WI  
Downtown Streetcar Project

## Where did the US invest in education?

Austin, Texas  
Federal Funds  
\$4.29 Billion in 2009  
\$8.75 Billion in 2010

Charlotte, NC  
Education funding  
\$5.74 Billion in 2000  
\$8.19 Billion in 2010  
Gained 30,000 new  
students. Average per-pupil  
spending rate increased.

## Where did the US invest in social security?

Los Angeles, CA  
\$188 Million in 2000  
\$256 Million to 2010

New York, NY  
\$181 Million in 2000  
\$246 Million in 2010

Miami, FL  
\$44 Million in 2000  
\$69 Million in 2010
